No Data Available
Posted by Rafael - 2011/10/12 13:06

I'm using Data Table with Source type CVS file, the path is data/Pasta1.csv for teste, but I have the message No data available.

Help me please!

Hello,

Could you provide a link to a page where we can see the problem and temporary access to your J! backend by email so we could investigate the issue?

Regards,
ARI Soft

Try now please. Incorrect path to CSV file was used. CSV file has name "201112 Stats.csv", not "Data/201112_Stats.csv".

http://cricketnamibia.com.dedi195.jnb2.host-h.net/index.php/clubs-a-fixtures

you will see that it only shows 11 columns but in the csv we have 13

Your CSV file contains "Overs" and "Run Rate" columns twice. Rename the second columns to "Overs 2" and "Run Rate 2" for example.

Hye,

I've just bought the extension and I can't make it work : No data available ... It seems the CSV file isn't loaded.

Could you help me please ???
Thanks !
