how to put scroller only in submenus
Posted by manos - 2009/10/29 19:34

---

hi again

I want to ask how to put scroll controls (top and bottom) only in my submenus?

thank you

Hello,

Set 'Max Height' option in menu settings.

Regards,
ARI Soft

thank you for your reply

set it to what?

and what about the rest? Min scroll height

I keep changing values...but the only thing i can do is to appear only the bottom scroll control

No, scrolling applies for all menus. You can read description of 'Max Height' and 'Min Scroll Height' parameters here.
