
More free text input fields

Posted by Christian - 2009/01/29 09:37

Please add the feature for more free text input fields like 4 - 5 input fields. thx :)

I could also use this feature - in a grammar text, for example, to have the user fill in all 7 cases of the noun: the easiest way to do this would be in one question with 7 free text fields, numbered. Currently, I do not know how to do it other than in 7 individual free text questions.
