
Some Issues with Import and Export Data

Posted by JohnnyDisussa - 2012/02/08 14:03

Hello Guys,

I'm facing some problem in import and export data in Microsoft Exce. Actually I want to export data in sql and html format. So I want to know whether any tool which perform such type of actions or any option is available in MS-Excel to perform this task. Please resolve my problem as soon as possible and give your valuable suggestion.

Thanks in advance!
