
Top results in each category of quizzes

Posted by Fujin - 2009/12/09 22:25

Hi there,
is there a possibility to have multiple TOP10 boxes for each category of quizzes?
For example I have 3 quiz categories (Biology, Math, and Astronomy). Each of these categories contains multiple quizzes. I want to have (and to show) three TOP10 boxes on main page (TOP10 in Biology, TOP10 in Math, TOP10 in Astronomy). How can I realize this?
Thanks!

Hello,

Create future request here, please, and we'll implement this feature in the next release.

Regards,
ARI Soft

Posted by Fujin - 2009/12/10 10:37

Thanks, ARI,
should I recreate this topic there or you can just move it to ARI Quiz Feature Request?

Is there any a chance for this feature to be implemented till the middle of January?

Million thanks in advice!

Re:Top results in each category of quizzes

Posted by admin - 2009/12/17 12:08

Hello,

Download the latest version of ARI Quiz from 'Member Area' on our site. It contains updated 'Top Results' and 'Latest Results' modules. Now these contain new option 'Category', where you can specify necessary categories.

Regards,
ARI Soft

Re:Top results in each category of quizzes

Posted by Fujin - 2009/12/17 22:01

Great feature, thanks,
now a little question how to use it?

I've created 6 quiz results blocks (5 of TOP5 for different categories and one TOP100 for all categories)
In top5 I typed category ID in "category" field (your new feature). See first image:
<http://www.fujin.com.ua/tmp/11.gif>

Yes, it created different TOP5 and TOP100 blocks, but it shows only 1(ONE) top result in each of TOP5 categories and 5 results in TOP100 (one top result from each category)
See the image. It's in Russian, but I'm sure you'll understand the idea.
<http://www.fujin.com.ua/tmp/12.gif>

I need to show top 5 results of respective category in each "TOP 5" box. And top 100 results from all the categories in "TOP 100" box.

Thanks!

Anyway ... great job, guys!

Hi,
will updated 'Top Results' and 'Latest Results' modules be updated more, like I wrote above in previous post?
Thanks!

Re:Top results in each category of quizzes

Posted by admin - 2009/12/21 17:35

Hello,

Sorry for delay. Yes, we'll add possibility for selecting multiple records for one quiz in the next version. We'll release new version within couple of days.

Regards,
ARI Soft

Re:Top results in each category of quizzes

Posted by admin - 2009/12/22 13:59

Hello,

ARI Quiz v. 2.8.3 is ready and contains improved 'Top Results' module. Set 'Aggregate results' option on module settings page to 'No' and module will show multiple top results for each quiz.

Regards,
ARI Soft

Re:Top results in each category of quizzes

Posted by Fujin - 2009/12/24 12:24

Yo, ARI-guys, you're great! Thanks! That's exactly what was needed.

Now let's see what would be great to update in this feature:

1. When Aggregate results in disabled and we show results of one single category, then there's no need to show category name in list:

<http://www.fujin.com.ua/tmp/13.gif>

It would be better to show it like this:

<http://www.fujin.com.ua/tmp/14.gif>

2. Would be great to have an option to show only one top result per user in list. I mean, if for example one user got 75% and 62.5% score, and both results are in top, then only the best result of this usr should be visible there.

<http://www.fujin.com.ua/tmp/15.gif>

This is not urgent, I just I would be appreciate if you'll add these features into your ToDo List.

Thank you and Merry Christmas!

Hello,

ARI Quiz v. 2.8.4 is ready and it contains improved 'Top Results' module. With this module you can hide quiz name with help 'Hide quiz name' option and display only one result for each user with help 'Aggregate user results' option.

Regards,
ARI Soft

Re:Top results in each category of quizzes

Posted by Fujin - 2009/12/28 14:13

Brilliant!
Thank you very very much!
Guys, you rock as always.

Are you ready for my new request? ;)

My project is almost ready to start, I just have to wait until your "import questions via csv" feature will be done. (it's a hard work to add 10 000 questions by hands, you know :S). So, I have some more small features till I wait for import one. Here's first one.

It would be great to have one more option in top results module "date field, to specify start date of counting results. Here's what I mean: if, for example, I chose in this field 01/01/2010, then this top results module will show only top results, gained since this date, and will not show older top results.
Is it possible to create this feature?

=====

Re:Top results in each category of quizzes

Posted by admin - 2009/12/28 15:41

It's good improvement for the module, but we can't add this feature in the nearest releases because we are working on other features. If you need this feature urgently, you can order custom development.

Regards,
ARI Soft

Re:Top results in each category of quizzes

Posted by Fujin - 2009/12/28 17:15

Thanks,
we will need this feature till the end of January, if your programmers will not implement this feature during January, than we will order custom development. By the way, can you tell how much time will it take to suggest this feature if we will order custom development?

And will the "import questions via csv" be ready till the end of January?

Thank you!

=====

Re:Top results in each category of quizzes

Posted by admin - 2009/12/28 17:19

Implementation of this feature takes couple of days. CSV import will be ready at end of January.

Regards,
ARI Soft
