Hi!

That the anonymous guest can be tested it well!!! However to write its result not always it is required!
It would be desirable to have an option "Results of guest do not save" inside 'Quizzez'.

P.S. I have got tired to delete!

Best Regards.

Hello,

Usually hosting panel (for example cPanel) provides ability to create tasks in a task manager so it is possible to create a task which will delete quizzes results for guest users each day (each hour and etc.).
