Customize form language?

Posted by toddprice - 2017/08/27 21:07

Can I change the words "Complete the form below to view results" something more welcoming?

Like:
"Please enter your email to view your results. No junk mail."

I think better wording will help my conversions.

Hello,

The plugin supports ability to translate any label. You can read here how to do it.

Regards,
ARI Soft
