
Upgrade feature project related between questions

Posted by cuongkth - 2012/12/26 10:29

I want to test the association between the questions as follows

Example:

Question 1

How old are you this year

- a. 6
- b. 14
- c. 25
- d. 30

Question 2

You are doing something

- a. Sales Staff
- b. Bookkeeper
- c. Salespeople

Question 3

You are a few classes

- a. First grade
- b. 11th grade
- c. other

Required when setting up questions and answers:

- If question 1: a, b, display the next question is the question 3
- If question 1: c, d then displayed next question is question 2
- If question 1: Choose a and 3: Choose a

Answer: You should learn English for primary

- If question 1: Choose b and 3: Choose b or c

Answer: You should learn English for school

- If question 1: Choose c or d and v. 2: Choose b

Answer: You should learn english for accounting

This test the relationship between the previous question to make follow-up questions and answers

=====
