## Overall-percentage on result page

Posted by PeterJ - 2013/05/23 15:49

---

Is it possible to include a formula that shows the average of points gained by all quiztakers of a certain quiz in the results page.

e.g.: I play Quiz "A". On my result page it shows "You got points. The average of all quiztakers playing quiz A in the past is points."

Would be a nice faeture, because that way the quiztakers can assess there knowledge in comparison to others.

Thanx,  
Peter

Thank you for your suggestion. We will implement the feature in a future release of the extension.
