## Randomise answer options

Posted by ivanjones - 2008/11/09 19:22

---

I propose adding a way of randomising answer options, to force the user to learn the correct answer rather than remembering that the answer to, say Question 4 is the 3rd option.

Example,

Supposing I create a question "Select the Animal:"

Door  
Chair  
Dog  
Apple

It should be possible to select an option for the possible answers to appear randomly each time the quiz is run:

Attempt 2

Apple  
Dog  
Chair  
Door

Attempt 3

Dog  
Chair  
Apple  
Door

Thanks.

Hello,

ARI Quiz 2.2.0 has been released.

New version contains several new features and enhancements:

- \* Single, Multiple and FreeText question can have different scores for different answers
- \* Single question may display possible choices as radio buttons or as drop-down
- \* Single, Multiple, Correlation and Drag'n'Drop Correlation questions have Randomized order setting that allows displaying possible choices in random order
- \* Last results and Top results modules have 2 new options: ignore anonymous users or not, display login or user name
- \* UI enhancements for Drag'n'Drop Correlation question
- \* Bugs fixed
- \* Performance improvements
- \* German and Russian translations updated

ARI Quiz 2.2.0 may be downloaded in member area.

Regards,  
ARI Soft
