
avoid the page with continue button

Posted by leftech - 2013/09/05 06:39

Can i ask you how to avoid the extra page that writes the name of quiz and has the button continue, when i select a quiz?

Hello,

Upgrade the extension to v. 3.5.1. It contains new parameter called "Access and Security -> Start immediately" in quiz settings.

Set the parameter to "Yes" if you want to skip quiz description page.

Regards,
ARI Soft
