## Quiz Navigation - previous , next question

Posted by NidhiKharbanda - 2010/07/11 09:37

---

How can we show navigation button for quiz questions - previous, next and go to question number ?

I requested this feature long back....., as per your reply in forum you confirmed that it will be available by April 2010.

Please update?

Hello,

Shame on us. This feature haven't implemented yet because the component update had been postponed for some reasons, but we are hard working on it and release new version in the nearest time. Sorry for this.

Regards,  
ARI Soft
