Links in ARI CSV Table?

Posted by jue_mue - 2009/01/31 10:19

_____

Hi again,

Is it possible to use links (say mail addresses) in ARI CSV Table as in ARI JCSV2 Table? It does not look like as if this is working alreday. Are you planning to implement this? Would be great.
Thanks,

Juergen

_____

Hello,

You can submit feature request and we implement it in one of future releases.

Regards,
ARI Soft
