Hi

I use this to make columns sortabel but it does not work:

```
{aricsvtable file="images/stories/csv/test.csv" sortBy="Name" sortDir="asc" sortType="SORT_REGULAR"}
{aricsvtablecolumns}
{aricsvtablecolumn id="Name" alias="Name" width="30%" className="idg"}
{aricsvtablecolumn id="City" alias="City" headerClassName="head"}
{aricsvtablecolumn id="Mail" alias="Mail" headerClassName="head"}
{/aricsvtablecolumns}
{/aricsvtable}
```

Where is the problem?

Thanks,

Juergen
