I want to use the CSV table feature but I don't know how to make the addon read the CSV I have on the server. Where can I find proper user documentation?

What should I do with this code?

```
{aricsvtable file="data.csv"}
   {aricsvtablecolumns}
     {aricsvtablecolumn id="ID" alias="ID" width="20%" className="idg"}
     {aricsvtablecolumn id="NAME" alias="UserName" headerClassName="head"}
   {/aricsvtablecolumns}
{/aricsvtable}
```

Hello,

place it in your article or in ARI Smart Content module. You can read article about usage of ARI Smart Content here http://smart.ari-soft.com/index.php?option=com_content&view=article&id=25
