

Two plugins together

I want to put your sortabletable plugin into your accordion plugin. Is this possible?

Could I have a small snippet?

Hello

You can use the following code:

```
{arijaccordion animated="easeslide" width="500"}
{arijaccordionitem title="Title 1"}
  First section
{/arijaccordionitem}
{arijaccordionitem title="Title 2"}
{arijablesorter defaultSorting="1:DESC"}
```

I will say these tools you guys make are first rate - once you get the hang of working with them.

I am impressed.

Is there a limit to the number of rows? I seem to be stuck 7.

Re: Two plugins together

This renders only 7 rows:

```
{arijaccordion animated="easeslide" width="500"}
{arijaccordionitem title="Title 1"}    First section
{/arijaccordionitem}
{arijaccordionitem title="Title 2"}
{arijtablesorter defaultSorting="1:DESC"}
```

Use autoHeight="false" parameter for ARI JAccordion plugin. In other words, use the following code:

```
{arijaccordion animated="easeslide" width="500" autoHeight="false"}  
{arijaccordionitem title="Title 1"} First section  
{/arijaccordionitem}  
{arijaccordionitem title="Title 2"}  
{arijtablesorter defaultSorting="1:DESC"}
```

Using this control seems quite touchy. Using the html editor in joomla is very difficult because my html is no longer nicely formatted; it's actually a mess. I copy my code out to Notepad and edit it there, then copy it to the HTML editor and save it. If you load this code and go to Farmers market I can NO longer sort my table. How do I enter cell values without breaking the plugin?

Hello,

It was a bug with 'ARI JTableSorter' plugin, but we have fixed it. Download updated component in 'Member Area' on our site and re-install it, please. It should resolve this issue. Sorry for inconvenience.

Regards,
ARI Soft
