
Can I use arijdatavisualizer with arisqltable ?

Posted by benbet - 2011/12/22 21:59

Hi,
... Can I use arijdatavisualizer with arisqltable like that ?

```
{arijdatavisualizer }  
  
{arisqltable}  
  
{arisqltablecolumns}  
  
{arisqltablecolumn id="Text" hidden="false" headCellTag="TH"}  
{arisqltablecolumn id="Nb_min" hidden="false" CellTag="TD"}  
  
{/arisqltablecolumns}  
{arisqltablequery saveTags="false"}  
  
SELECT Text, sum(Nb_min_joue) as Nb_min  
FROM table as b  
where b.Nom_joueur = "xxx"  
  
group by b.text  
order by b.text asc  
{/arisqltablequery}  
{/arisqltable}  
  
{/arijdatavisualizer}
```

Regards,

=====

Hello,

Could you send SQL dump of used table with sample data by email?

Regards,
ARI Soft

Do you have an answer yet? Can I use arijdatavisualizer with arisqltable? Do you have an example?
Thank you

We can't provide an exact answer because we don't know structure of your table. Send SQL dump of the table with sample data by email so we can answer to your question.

Regards,
