
Escape character?

Posted by avilovi - 2013/08/05 07:17

Hello,

I have quotes in article's title, which causes problems with JAccordion.

Is there a way to "escape" those quotes?

Thank you very much in advance.

Hello,

Could you specify what plugin code do you use, what problem occurs and what title causes the problem?

Here is the plugin code:

```
{arijaccordion autoHeight="false" alwaysOpen="false" active="false" width="100%" useJoomlaArticle="true"
includedArticle="71,72" articleCatId="-1"}
{articleTitle}{$title}{/articleTitle}
{ariarticletemplate}
{$introtext}
{/ariarticletemplate}
{/arijaccordion}
```

The title (in Russian) won't display correctly here.

The problem is:

It frames the first item between the (visible) tags

```
{arijaccordionitem title="won't display correctly"}{/arijaccordionitem}
```

and the second item is absent.

Apparently, the problem is not in Russian, as the following title causes the same problem:
trains from "Soligorsk"

The following plugin code works fine:

```
{arijaccordion width="200"}
{arijaccordionitem title="won't display correctly"}
  First section
{/arijaccordionitem}
{arijaccordionitem title="Title 2"}
  Second section
{/arijaccordionitem}
{arijaccordionitem title="Title 3"}
```

Third section
{/arijaccordionitem}
{/arijaccordion}

Could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate it?

ARI Soft

Hi,

I think I explained my problem badly.

I have several articles. The title of one of them contains quotes: A title with "quotes".

I use the following code:

```
{arijaccordion autoHeight="false" alwaysOpen="false" active="false" width="100%" useJoomlaArticle="true"
includedArticle="71,72" articleCatId="-1"}
{articleTitle}{$title}{/articleTitle}
{ariarticletemplate}
{$introtex}
{/ariarticletemplate}
{/arijaccordion}
```

And it won't display correctly, while the quotes are present in article's title.

Hello,

Download and upgrade the component. It should help.
