arijdatatable problem

Posted by altfatech - 2013/09/03 03:59

---

hi,

i'm using arijdatable to display data from mysql database.

however, for the field with type Longtext it won't displayed the data. is there any limitation for the plugin.

hope u can help me. tq

Hello,

Could you specify what SQL query do you use?

Here as below:

FYI, the field name=desc, is using Longtext type

{arijdatatable bLengthChange="true" asStripClasses="list_odd,list_even" iDisplayLength="20"} {arisqltable}{ariconnectionstring dbHost="localhost" dbName="db_name" dbUser="root" dbPass="dbpwd" dbType="mysqli" persistent="false"}{arisqltablecolumns}{arisqltablecolumn id="Date" alias="Date" headerClassName="head"}{arisqltablecolumn id="Desc" alias="Description" headerClassName="head"}{/arisqltablecolumns}{arisqltablequery} SELECT DATE_FORMAT(date_case,'%d-%m-%Y')AS Date,desc AS Desc FROM tbl_a {/arisqltablequery}{/arisqltable} {/arijdatatable}

Hope u can help me, tq

If you see nothing then use the following plugin code:

{arijdatatable bLengthChange="true" asStripClasses="list_odd,list_even" iDisplayLength="20"} {arisqltable}{ariconnectionstring dbHost="localhost" dbName="db_name" dbUser="root" dbPass="dbpwd" dbType="mysqli" persistent="false"}{arisqltablecolumns}{arisqltablecolumn id="Date" alias="Date" headerClassName="head"}{arisqltablecolumn id="Desc" alias="Description" headerClassName="head"}{/arisqltablecolumns}{arisqltablequery} SELECT DATE_FORMAT(date_case,'%d-%m-%Y')AS Date,`desc` AS `Desc` FROM tbl_a {/arisqltablequery}{/arisqltable} {/arijdatatable}

If you see 'Date' column and don't see 'Description' column, send SQL dump of your table by email so we can try to reproduce the problem on our test server.

---

hi,

thank you so much.

it works if change 'desc' AS Desc with desc AS 'Desc'

tq

BTW, it is not the extension issue, this was the problem with SQL query.
