ARI Tooltips

_____

Hello, Could you tell me:

May I change color of tooltip body in standard rectangle?

Thank you

===

Re:ARI Tooltips

_____

Hello,

.bgRed
{
 background-color: red !important;
}

Then you should indicate this class in extraClass attribute of tooltip.

If you wish such class to be used by default you may indicate it in Extra class field in plugin settings or create the
following CSS rule:

#tooltip
{
 background-color: red !important;
}

Regards,
ARI Soft
