
le module ari jaccordeon marche dans firefox mais

Posted by baymaro - 2010/02/27 00:39

Salut j'ai installé le module jaccordeon du pack ari smart content.
Sous Firefox , j'observe bien les déplacements au click, mais sous internet explorer, le module s'affiche, les déplacements au cliks ne sont pas possibles

Merci de m'aider

Hello,

Could you describe your request or issue in English?

Regards,
ARI Soft

the jaccordeon mod don't work in i. explorer

Posted by baymaro - 2010/02/28 16:55

He I have just installed the ari smart content pack and i'm to use the jaccordeon module;
But the module work correctly with firefox but not with internet explorer; the article don't slide when clicking on the title.

Please what could be the reasons ?
