# CSS problem with Top Menu

Posted by jfbeaulieu - 2011/06/02 11:45

---

Hi,

I have some problem to change the CSS of my top menu. I would like to change the CSS code for the Active, Selected and Visited atribute but nothing want to work properly. The only thing I can change is the background-color. If I want to replace the background-color by a background-image or other, nothing want to work. Same thing with the font color. The font color have to be the same for all the atributes (active, selected, etc.) but I would like to change the background-image and the text color to want I put my mouse hover or when the menu item is active, etc.

This is my code for the moment. Can you tell me where I should modify my CSS to be able to change the font color when is Active ? Where I can change the background-image when is mouse over and/or is active ?

Thank you

My website to see the result: prmi.profilweb.net

Hello,

Use the next CSS rule:

```
#ol-bgtop .yuimenubar UL LI A.yuimenubaritemlabel-selected
{
 color: red !important;
}
```

You can also use "background" or "background-image" CSS property in provided CSS rule that change background.

Regards,
ARI Soft

Hi,

Thank you for the quick answer. But this just resolve my font color problem. When I tried to put a background, nothing happen. This is the code I use :

```
#ol-bgtop .yuimenubar UL LI A.yuimenubaritemlabel-selected
{
 color: #6a94a0 !important;
 background-image:url(../../../../../../../images/stories/imagesPRMI/bgtopmenu.png)!important;
 background-repeat:repeat-x!important;
}

#ol-bgtop .yuimenubar UL LI A.yuimenubaritemlabel-active
{
 background-image:url(../../../../../../../images/stories/imagesPRMI/bgtopmenu.png)!important;
 background-repeat:repeat-x!important;
 color: #6a94a0 !important;
```

}

Thank you very much for your precious help !!
Jeff

Hi,

In the safe_menu.css files. But the code works great... but just for the font color. Not for the background-image and background- !

Thank you very much,
Jeff

Hi,

I didn't put it online yet. I work in local. But I have this code in the safe_menu.css file :

```
#ol-bgtop .yuimenubar UL LI A.yuimenubaritemlabel-selected
{
 color: #6a94a0 !important;
 background-image:url(../../../../../../../images/stories/imagesPRMI/bgtopmenu.png)!important;
 background-repeat:repeat-x!important;
}

#ol-bgtop .yuimenubar UL LI A.yuimenubaritemlabel-active
{
 background-image:url(../../../../../../../images/stories/imagesPRMI/bgtopmenu.png)!important;
```

```
 background-repeat:repeat-x!important;
 color: #6a94a0 !important;
}

{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel {
 padding: 0 20px 0 10px;
 color:#FFF;
 border-style: solid;
 border-color: #808080;
 border-width: 1px 0;
 *position: relative;
 margin: -1px 0;
 line-height: 2;
 *line-height: 1.9;
 *display: inline-block;
 font-weight: bold;
 size:10px;
}
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel:link {
 padding: 0 20px 0 10px;
 border-style: solid;
 border-color: #808080;
 border-width: 1px 0;
 *position: relative;
 margin: -1px 0;
 line-height: 2;
 *line-height: 1.9;
 *display: inline-block;
 font-weight: bold;
 size:10px;
}
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel:visited {
 padding: 0 20px 0 10px;
 border-style: solid;
 border-color: #808080;
 border-width: 1px 0;
 *position: relative;
 margin: -1px 0;
 line-height: 2;
 *line-height: 1.9;
 *display: inline-block;
 font-weight: bold;
 size:10px;
}
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel:hover {
 background-color:#FFF;
 padding: 0 20px 0 10px;
 color: #6a94a0;
 border-style: solid;
 border-color: #808080;
 border-width: 1px 0;
 *position: relative;
 margin: -1px 0;
 line-height: 2;
 *line-height: 1.9;
 *display: inline-block;
 font-weight: bold;
 size:10px;
}
/*
{$id}.yui-skin-sam .yuimenubarnav LI A.yuimenubaritemlabel,
{$id}.yui-skin-sam .yuimenubarnav LI A.yuimenubaritemlabel:link,
{$id}.yui-skin-sam .yuimenubarnav LI A.yuimenubaritemlabel:visited,
{$id}.yui-skin-sam .yuimenubarnav LI A.yuimenubaritemlabel:hover {
 font-size: 93%;
```

```
 line-height: 2;
 *line-height: 1.9;
 padding-right: 20px;
 *display: inline-block;
}*/

{$id}.yui-skin-sam .yuimenubarnav .yuimenubaritemlabel-hassubmenu {
 background: url(js/assets/menu/sam/menubaritem_submenuindicator.png) right center no-repeat;
}

{$id}.yui-skin-sam A.yuimenubaritemlabel-selected,
{$id}.yui-skin-sam A.yuimenubaritemlabel-active {
 background-color:#FFF;
 border-color: #7D98B8;
 color:#6a94a0;
}

{$id}.yui-skin-sam .yuimenubarnav .yuimenubaritemlabel-selected,
{$id}.yui-skin-sam .yuimenubarnav .yuimenubaritemlabel-active {
 border-left-width: 1px;
 margin-left: -1px;
 *left: -1px;
}

{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel-disabled,
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel-disabled:visited,
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel-disabled:link,
{$id}.yui-skin-sam UL LI A.yuimenubaritemlabel-disabled:hover {
 color: #A6A6A6;
 font-family: Helvetica
}
```

There is something I should add/remove to be able to change the background of this menu ?

Thank you again,
Jeff

If it is available on local machine, you can use FireBug addon for FireFox browser that investigate menu styles.

Hi,

Thank you for your help !! Everything is finally fine in my website ! I had to put the background image file online to get it work (but I don't understand why it's impossible in local... but for the moment, I don't realy care about that)  !

Thanks for your patience to help me ! ;)

Cheers,
Jeff
