
Css does not work - please help!

Posted by dfm - 2011/07/21 13:37

hi!

first i have to say is thank you for this great menu!

but i have a great problem. when i add css styles (in joomla) nothing happens.

i don't now why. the domain is www.xxx.domain.at

can you help me please?

Hello,

Sorry, but 404 HTTP error occurs when we try to open provided link.

Regards,
ARI Soft
