Menu items hidden behind the content in ie7!

Posted by losactos - 2011/08/01 16:38

I used the artisteer software to draw the layout of the site following www.justicia.intersindical.org But the horizontal sub menu insists on hiding behind the content using ie7

Appreciate the help!

Sorry for the delay. It seems you have disabled the menu on your site.

Regards,
ARI Soft
