Change/Highlight parent whose child is active....

Hi,

I am using ARI YUI Menu "Horizontal". You can look at http://newausrivas.csse.com.au.

I want to highlight the parent Menu Item title whose child is active so that one can see which menu item's pages they are visiting at current point in time.

I tried many things and searched on forum, no luck.

Please help.

Hello,

Sorry, but the module doesn't work in this way.

Regards,
ARI Soft
