
Long sub menus

Posted by mick - 2011/09/09 06:05

hi,

I have long submenus which are going out of page length....so can i enable scrollable menu class for long submenus...i have seen that feature in your module when it don't get full space for dropdown then it opens scrollers like in image i want them permanent plz help soon for settings ...my client may add 100 or more sub menus Module used : (mod_ariyuimenu) http://www.ari-soft.com/images/fbfiles/images/Aviary_192_168_2_16_Picture_1.png

Hello,

See "Max height" and "Min scroll height" parameters.

Regards,
ARI Soft
