Hi,

How can i center the text in the menus ?

And i don't want the home button highlighted at start. All the items should be the same.

Hello,

1. Add the next CSS rules to "CSS Styles" parameter in module settings:

```
BODY .yuimenubar LI A
{
 text-align: center !important;
}
```

2. Set "Highlight current item" to "No".

Could you provide temporary access to your J! backend by email so we could investigate the issue?
