Sub Menu Hidden Behind Content

Posted by GsW Shaka - 2011/10/19 19:04
_____

Hi,

First of all thank you for your module, it's a great extension.

I have a problem when using it with joomsocial, sub menus are hidden behind the content.

My website is still under construction, I know you need to see the website to find a fix, How can I send you a private access to the website ?

Best regards, Mike.

_____

Add the next CSS rule to fix the problem:

#maincol .yui-skin-sam

```
{
 position: relative;
 z-index: 20;
}
```

Regards,
ARI Soft
