
change color of menu

Posted by yjiang92131 - 2011/12/06 06:20

Hi,

I can change the color of the font in the submenu, not the main menu (i would like it to be #fff). could you help me.
web link: <http://www.aprexbio.com/apx>.

thanks.

Hello,

Use the next CSS rule:

```
A.yuimenubaritemlabel
{
  color: #FFF !important;
}
```
