# center ari yui horizontal menu

Posted by apolite - 2011/12/14 03:35

_____

Hello Everyone,

Please be patient with me as this is my first post. I have read a lot of the post showing the code to make the horizontal menu centered and it states to add the next css rule. Well could someone please tell me where to add the rule. What exactly does this mean? Thank You.

_____

Hello,

Copy provided code and insert it into "CSS Styles" parameter in module settings.

Regards,
ARI Soft
