Change font to Titillium maps and get rid of shade

Posted by lalamaria - 2012/02/20 11:40

_____

Hi,

Thank you for your wonderful support.

Here is my website: cep.org.rs

I would like to change the font (TOP ARI YUI Menu) to Titillium Maps - when I tried it changed just SUBmenus but not the main one :(.

Also, I would like to get rid of this grey shade in the same menu.

Thank you again!!!

_____

Hello,

Provide an image where we can see what do you want to achieve.

Regards,
ARI Soft

_____

Hi - I am not sure I understand what are you asking me to do :(.

I want to change the font in my TOP menu, from the current Arial to a font called "Titillium Maps".

If you take a look - my menu has a grey shade implemented in it and I would rather have a simple white one.

THnk you!

_____

Add the next CSS rules:

.yuimenubar LI A
{
 font-family: 'Titillium Maps';
}

.yuimenu .yui-menu-shadow
{
 display: none !important;
}

Regards,
ARI Soft
