clear,
temporarily hid the submenu,
I send the image where (.gif) all the submenus are displayed

This problem with site template styles. Add the next CSS rules to "CSS Styles" parameter in module settings or to a site template CSS file:

```
#header UL.ux-menu-hidden
```

```
{  
  display: none  
}
```

```
#header .ux-menu a.ux-menu-link-parent
```

```
{  
  padding-right: 20px;  
}
```

It seems you use "ARI Ext Menu", add the next CSS rule:

```
UL.ux-menu LI A
{
font-family: Arial Narrow, Arial, Helvetica, sans-serif;
}
```
