Too much padding with submenus?

Posted by Jarno70 - 2012/10/28 15:55

_____

Hello!
I can,t set the menu, such as in the demo. The first menu item ("Passiivitalopaketti") and its submenu's, works like a demo, but the other menu items and its submenu items, not work. For example menu item "Loma-asunnot" sub-menus are a bit hidden and in front of the text is vertical line. Submenus go to the right side so is there some padding setting witch makes that?
You can see that horizontal menu here...

_____

Hello,

This problem with site template styles. Add the following CSS rule to fix the problem:

BODY .right-column
{
 overflow: visible;
}

Regards,
ARI Soft
