submenu is partly visible

Posted by shahrama - 2012/11/06 14:50

_____

Hi. I have a vertical menu but only two submenus are visible and truncated.I cannot find what css settings of the template causes the problem.

The address of the webpage is:
My web page

The second submenu is ARI YUI menu.

Can you please help me?

_____

Hello,

The problem with site template styles. Add the following CSS rules to fix the problem:

body #holder,
body #leftblock,
#leftblock .inside,
#leftblock .inside .yjroundout,
#leftblock .inside .yjround_in
{
  overflow: visible;
}

Regards,
ARI Soft
