_____

I have re-installed this menu on a different site and the drop downs are now not showing. This is a fresh install.

Hello,

This problem with site template styles. Add the following CSS rule to fix the problem:

BODY #header
{
 overflow: visible;
}

hello,

you wrote to add the following code to css:

BODY #header
{
overflow: visible;
}

but to which css? template.css? or another one. I added this code to template.css and it didn't work.

thanks a lot for your reply.

oh sorry,

in the attached screenshot you see my entries for your module:

http://img.neurieser.eu/foren/ari_01.png

and there is where it should appear:

http://img.neurieser.eu/foren/ari_02.png

the url of the site is: pre.cbca.at

Use the solution from this post. Custom CSS rules can be added to "CSS Styles" parameter in module settings.
