
Module not saving CSS info

Posted by dbarry722 - 2013/05/14 13:40

Hi Folks.

Just looking to centre menu on the website but it doesn't seem to be saving the info

I added in:

```
.yuimenubarnav
{
text-align: center;
}
```

```
.yuimenubarnav .bd
{
display: inline-block;
}
```

saved it then tested website but it didn't work. Went back to CSS Style box and there was just a '0' in it.

Hello,

Download and upgrade the module. It should help.

Regards,
ARI Soft

Cheers.

Many thanks. It seems to be working now.
