customizing problem

Posted by vox666 - 2010/05/26 09:24

Hi i just installed this powerful menu on my website. I'm having problem customizing it.
my site: http://sgmetal.co.cc/metal

how to i change the menu
-background color = black
-align to center
-font bold and color = white
-hover = red

thanks in advance.

Hello,

You can add the following code to 'CSS Styles' parameter on module settings page:

```
BODY #{$id}.yui-skin-sam .yuimenubar,
BODY #{$id}.yui-skin-sam .yuimenubaritem-selected,
BODY #{$id}.yui-skin-sam UL LI.yuimenuitem-selected,
BODY #{$id}.yui-skin-sam .yuimenu .bd
{
background-color: #000;
background-image: none;
}

BODY #{$id}.yui-skin-sam ul li a.yuimenubaritemlabel,
BODY #{$id}.yui-skin-sam ul li a.yuimenubaritemlabel:link,
BODY #{$id}.yui-skin-sam ul li a.yuimenubaritemlabel:visited,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:link,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:visited
{
color: #FFF;
}

BODY #{$id}.yui-skin-sam ul li a.yuimenubaritemlabel:hover,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover
{
color: #FF0000;
}
```

or the following code to safe_menu.css file:

```
BODY {$id}.yui-skin-sam .yuimenubar,
BODY {$id}.yui-skin-sam .yuimenubaritem-selected,
BODY {$id}.yui-skin-sam UL LI.yuimenuitem-selected,
BODY {$id}.yui-skin-sam .yuimenu .bd
{
background-color: #000;
background-image: none;
}

BODY {$id}.yui-skin-sam ul li a.yuimenubaritemlabel,
BODY {$id}.yui-skin-sam ul li a.yuimenubaritemlabel:link,
```

```
BODY {$id}.yui-skin-sam ul li a.yuimenubaritemlabel:visited,
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel,
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel:link,
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel:visited
{
color: #FFF;
}

BODY {$id}.yui-skin-sam ul li a.yuimenubaritemlabel:hover,
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover
{
color: #FF0000;
}
```

opss sorry. http://sgmetal.co.cc/metal

thanks Mr admin. its work. btw how do i align the menu to center instead of the default left? btw, i managed to make the fonts to be bold. :)

The menu is located just below the site's header. (top menu)

edit: miss menu location

You can add the following CSS rule that align the menu to center:

```
#navigation .yui-skin-sam  {
        position: relative;
 display: -moz-inline-stack;
 display: inline-block;
 zoom: 1;
 *display: inline;
}
```
