Border and height on rt_afterburner

Posted by zilonx - 2010/06/24 19:57

_____

Cannot get rid of the border on rt_afterburner.
Is there a way to change the height of the menu, or put some background color/image on subitems?

Thanks!

_____

Hello,

Provide link to page where we can see the menu on your site that we can help you.

Regards,
ARI Soft
