
How to change font color on horizontal body menu

Posted by edwin - 2010/06/25 05:08

Dear Technical Support,

I want to ask about how to change font color on horizontal body menu. I want to change from black to white.

Thank you for your attn.

Hello,

You can add the following CSS rule to template CSS file or in 'CSS Styles' parameter in module settings:

```
.yui-skin-sam .yuimenuubar .yuimenuubaritemlabel
{
  color: #FFF;
}
```

Regards,
ARI Soft
