
Centering the individual menu items

Posted by Jerard - 2014/09/11 13:15

Hello,

I'm a long time lurker to this forum but have never been able to find this answer. I'm trying to center each menu item (not the entire menu itself). For example, the menu item "Dental Plans" is not centered in it's own "box". My site is: AskJeff.US. I'd appreciate any help on this.

My current code I'm using is:

```
body .yui-skin-sam .yuimenuubar
{
}
```

```
.yui-skin-sam .yuimenu DIV.bd
{
background: #e1e8d6 !important;
}
```

```
.yui-skin-sam .yuimenu DIV.bd .yuimenu DIV.bd
{
background: #e1e8d6 !important;
}
```

```
.yui-skin-sam A.yuimenuubaritemlabel-selected,
.yui-skin-sam A.yuimenuitemlabel-selected
{
background-color: #e1e8d6 !important;
}
```

```
.yuimenuubaritemlabel,
{
color: #5b8c07 !important;
}
```

```
body .yui-skin-sam .yuimenuubar .yuimenuitemlabel
{
color: #5b8c07 !important;
}
```

```
body .yui-skin-sam .yuimenuubar .yuimenuubaritemlabel:hover,
body .yui-skin-sam .yuimenuubar .yuimenuitemlabel:hover
{
color: #fd6900 !important;
cursor: pointer !important;
}
```

```
body .yui-skin-sam .yuimenuubar .yui-menu-shadow
{
display: none !important;
}
```

```
.yui-skin-sam .yuimenuubar
```

```
{
border-color: #5b8c07 !important;
border-width: 1px !important;
}
```

```
.yuimenubaritemlabel
{
border-color: #5b8c07 !important;
border-width: 1px !important;
background: #5b8c07 !important;
}
```

```
.yui-skin-sam .yuimenu DIV.bd
{
border-color: #5b8c07 !important;
border-width: 1px !important;
}
```

```
.yui-skin-sam .yuimenubar
{
text-align: center !important;
}
```

```
.yui-skin-sam .yuimenubar .bd
{
display: -moz-inline-stack !important;
display: inline-block !important;
zoom: 1 !important;
}
```

```
.yui-skin-sam .yuimenubar .yuimenu .bd
{
display: block !important;
}
```

```
body #{ $id }.yui-skin-sam .yuimenubarnav .yuimenubaritem
{
border-right-style: none;
}
```

```
.yuimenubaritemlabel
{
margin-left: 7px !important;
margin-right: 7px !important;
margin-top: 7px !important;
margin-bottom: 7px !important;
}
```

```
#ariyui106 LI.yuimenubaritem-selected
{
background-image: none !important;
}
```

```
#{ $id } .yuimenubar .bd UL LI.yuimenubaritem-selected
{
background: #5b8c07 none;
}
```

```
body #header
```

```
{
overflow: visible;
}
```

```
body #header #header-image
{
overflow: hidden;
}
```

Thank you

=====

Re:Centering the individual menu items

Hello,

Add the following CSS rule:

```
.yuimenubaritemlabel{padding-right: 10px !important;}
```

That worked, thank you. One more, if I may.

I have changed the top, bottom, right, and left margins to zero. Is there a way to eliminate the left and right white spaces so that the entire menu is dark green? I have tried increasing the font size but it causes the menu to go to two levels.

Edit: I have noticed that the margins look good in Firefox but there is still a bottom margin in IE...?

You can use "Developers Tools" in IE to investigate the problem (press F12 to open developers toolbar).
