
Not showing all of submenu items

Posted by varga1991 - 2010/07/14 12:49

Hi all!

I have a problem. I installed an ARI Yui Menu module for Joomla 1.5.18
i work in a personal server (use Wampserver) and not showing all of submenu items only 2. please help me! Thx

Hello,

We can help you, if you place your site on online server and provide link to page where we can see the issue.

Regards,
ARI Soft
