
Background Image and Text Color

Posted by rene.gensert - 2010/07/14 13:20

Hello,

i having a problem with changing the text color of the top level on my new joomla site and the background image on the "start" item on the left side.

the color must be #FFFFFF and the background image the same like the rest.

i have trie different tips from your forum, but i didn't find the right place to change. Im looking many times with firebug in the CSS but i have no more ideas. :S

Thank you for your help and support,

Rene

Hello,

Provide link to page where we can see the menu, please.

Regards,
ARI Soft

I'm using Firefox as my default browser. In IE8 it looks different: there is the background image on "Start" item ok but the submenu's are total wrong. In FF the submenu's are OK.

Hello,

Sorry for delay. Now the module looks fine or some issues still exist?

Regards,
ARI Soft

Thank you for your support, delay is no problem.

The menu works fine in Firefox and Others, but not in IE8.

In IE every second submenu have a different background color and have no link: "Rent a coach" -> "VIP Line".

Add the next CSS rule:

```
.yuimenu .yui-menu-shadow
{
    display: none !important;
}
```

Regards,
ARI Soft

Perfekt,

great support. You save my head

That's work. Thanks for your help.
