

## Menu Format

Posted by TimScudder - 2010/08/07 02:55

I am trying to do 3 things with the menu on <http://www.devxtemp.info/joomla/>:

- 1) center the menu, set to 700 px, to the content body,
- 2) set the regular and hover colors of the second level menu items - they should be the reverse of the first level,
- 3) set the font sizes, font-family of each level.

I would appreciate any help.

Hello,

Regarding questions 1 and 2, use the following CSS rules:

```
#ja-mainnav
{
    text-align: center;
}

#ja-mainnav .yui-skin-sam
{
    display: -moz-inline-stack;
    display: inline-block;
    zoom: 1;
    *display: inline;
}

#ja-mainnav .yuimenubar .bd UL LI UL LI A.yuimenuitemlabel
{
    color: red;
}

#ja-mainnav .yuimenubar .bd UL LI UL LI A.yuimenuitemlabel:hover
{
    color: green;
}
```

Regarding question 3, currently the module doesn't provide possibility to define specific styles for specific sub-menu items level.

Thanks - that was extremely helpful. Two more questions:

- 1) is it possible to center the first level menu items (Home, About Us, etc.) in the menubar?
  - 2) How do set the color and thickness of the borders between the first level menu items, for example, to have thick blue borders between them (probably both left and right borders)?

Hello,

1. Use the following CSS rules in 'CSS Styles' parameter in module settings:

```
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel:link,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel:visited,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel:hover  
{  
padding: 0 10px 0 10px;  
}  
  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel-hassubmenu,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel-hassubmenu:link,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel-hassubmenu:visited,  
#{$id}.yui-skin-sam .bd ul li a.yuimenubaritemlabel-hassubmenu:hover  
{  
padding: 0 20px 0 10px;  
}
```

2. You can type the following CSS rule in 'CSS Styles' textarea in module settings:

```
body #{$id}.yui-skin-sam .yuimenubarnav .yuimenubaritem  
{  
border-right: red 2px solid;  
}
```
