Sub-menu not clickable in IE7

Posted by f_d_amore@hotmail.com - 2010/08/12 12:49

_____

Hi,

first of all thank you for providing this usefull module and this forum for support.

I got a problem using ie7 on my site www.deciozoffoli.it.

Put mouse over "Gallery" and then try to select third, fourth or fifth sub-menu...you can't!!

It works with firefox.

I think it is a css problem but I can't fix it. Please, can you help me?

Tks, Fabio

_____

Finally I got the solution, problem was in template css. I set z-index:10000; on the div that contain menu module and all works find !

Bye
