Hi,

I try to download ARI YUI menu but after clicking on Download ARI YUI Menu module for Joomla! 1.5 i get a webpage saying You can't download the file directly. Visit download page, please, that download the file.

Can you direct me to the downloadpage?

Hello,

It can be problem with browser, maybe cookie is disabled or it sends some incorrect HTTP headers. If you can download it directly from our site, you can request the module by email.

Regards,
ARI Soft
