Ive had a read through a few topics and tried a few things but i cant get my menu text to center. What css file do i edit? like the file name of it and where do i put the code?

You can find my menu here: http://www.stellardusk.com/

Thanks for the help

brilliant i worked it out from that post. Now the nest problem is that the drop down menus are not the same width as the menu item its dropping down from is there anyway to make them the same size?

Thanks,
