## Another Center Post

Posted by mattDirt - 2010/10/06 17:07

---

I went through every other post about centering the boxes that are flush left in my nav bar and none of them have worked for me. Can you shed some light on this for me?

xxxxxxxxxx

Hello,

Use the following CSS rules:

```
#homeSecnav .yui-skin-sam
{
  text-align: center;
}
```

```
#homeSecnav .yuimenuubar
{
  display: inline-block !important;
}
```

Regards,  
ARI Soft

Thank you, thank you, thank you!  
I cannot believe how fast and precise your responses are.
