
Change default color (not hover) of the menu

Posted by maorlast - 2010/10/10 18:51

I was wondering how can i make a menu that will look like <http://www.tambour.co.il>

1. I want to modify the default color (not only hover)
2. Also, can i choose different color for each menu item?
(if not, please reply to question number 1)

Thanks!

Hello,

1. More information about menu styles can be found in this post on our forum.
2. Each
 - element contains the following CSS class yui-menu-item where is ID of menu item which can be found in Joomla! menu manager and this class can be used for styling menu items.

Regards,
ARI Soft
