How to center just the menu items??

_____

This is my webpage: http://www.perimetra.com.mx

I would like to know how to center just the menu items of the top menu not the bar???

I tried with some of the solutions of this great webpage but their center the menu items and resize the bar.

I need that the bar remains with the same size and just the menu items in the center of the bar.

best regards.

Hello,

Add the following CSS rules:

```

{
 text-align: center;
}

#ariyui48 .bd
{
 display: inline-block;
 *zoom:1;
 *display: inline;
}
```
