Re:round corner on vertical position

Posted by admin - 2011/09/05 09:51

Hello,

Use the next CSS rules:

```
.ux-menu-vertical LI A.ux-menu-link-first,  
.ux-menu-sub LI A.ux-menu-link-first  
{  
-moz-border-radius: 10px 10px 0 0;  
-webkit-border-radius: 10px 10px 0 0;  
-o-border-radius: 10px 10px 0 0;  
border-radius: 10px 10px 0 0;  
border-style: none !important;  
}
```

```
.ux-menu-vertical LI A.ux-menu-link-last,  
.ux-menu-sub LI A.ux-menu-link-last  
{  
-moz-border-radius: 0 0 10px 10px;  
-webkit-border-radius: 0 0 10px 10px;  
-o-border-radius: 0 0 10px 10px;  
border-radius: 0 0 10px 10px;  
border-style: none !important;  
}
```

```
.ux-menu-vertical LI A.ux-menu-link-first.ux-menu-link-last,  
.ux-menu-sub LI A.ux-menu-link-first.ux-menu-link-last  
{  
-moz-border-radius: 10px 10px 10px 10px;  
-webkit-border-radius: 10px 10px 10px 10px;  
-o-border-radius: 10px 10px 10px 10px;  
border-radius: 10px 10px 10px 10px;  
}
```

Regards,
ARI Soft

Re:round corner on vertical position

Posted by zainf - 2011/09/05 10:11

Thank you for your reply i added the code you sent but it doesn't work correctly here's the link : www.multiservicecar.net
just the last button is perfect (liens utiles) thank you for helping me make the other buttons as this one.

Thank you for your help

Re:round corner on vertical position

Posted by zainf - 2011/09/05 10:43

Tahk you it work but i don't have space between the two last butons.

Best regards

=====

Re:round corner on vertical position

Posted by admin - 2011/09/05 11:07

Add the next CSS rule:

```
body .ux-menu-vertical li a.ux-menu-link-last
{
border-style: solid !important;
}
```

Regards,
ARI Soft

round corner on IE

Posted by zainf - 2011/09/07 10:50

Hi Karma,

i verified the menu it look great on firefox but on IE the round corner cannot be seen.
is there anything to do to fix the problem :

www.multiservicecar.net

Thank for your help

Best regards

Re:round corner on IE

Posted by admin - 2011/09/07 12:01

Round borders doesn't work in IE 6-8 because it doesn't support CSS 3.

Re:round corner on vertical position

Posted by apaparadi - 2011/10/11 18:24

I tried to do the same with horizontal menu but only the 2 of the 6 menu items changed. The rest 4 maintained the edges. I changed in the code the word "vertical" to "horizontal". Do i have to do something more?

Re:round corner on vertical position

Posted by admin - 2011/10/11 19:52

Where we can see the menu? And could you provide a screenshot where we can see what do you want to achieve?

Regards,
ARI Soft

Re:round corner on vertical position

Posted by apaparadi - 2011/10/12 07:00

As you can see only 2 menu items and 2 submenus have round borders. <http://www.ari-soft.com/images/fbfiles/images/menu-e01488f0f54ef023961f55839409e09f.jpg>

=====

Re:round corner on vertical position

Posted by admin - 2011/10/12 07:02

Provide a link to a page where we can see the menu.

Regards,
ARI Soft

Re:round corner on vertical position

Posted by ewightman - 2014/08/19 16:35

Thank you, this is what I wanted as well. But I have a horizontal menu that has 7 or more sub menus. The following code is working fine for the top, first and last but I would like the in between to have the same style as first.

```
.ux-menu-horizontal LI A.ux-menu-link-first,  
.ux-menu-sub LI A.ux-menu-link-first  
{  
-moz-border-radius: 0px 0px 0 0;  
-webkit-border-radius: 0px 0px 0 0;  
-o-border-radius: 0px 0px 0 0;  
border-radius: 0px 0px 0 0;  
border-style: solid !important;  
border-width: 0px 3px 0px 3px;  
}
```

```
.ux-menu-horizontal LI A.ux-menu-link-last,  
.ux-menu-sub LI A.ux-menu-link-last  
{  
-moz-border-radius: 0 0 10px 10px;  
-webkit-border-radius: 0 0 10px 10px;  
-o-border-radius: 0 0 10px 10px;  
border-radius: 0 0 10px 10px;  
border-style: solid !important;  
border-width: 0px 3px 3px 3px;  
}
```

```
.ux-menu-horizontal LI A.ux-menu-link-first.ux-menu-link-last,  
.ux-menu-sub LI A.ux-menu-link-first.ux-menu-link-last  
{  
-moz-border-radius: 10px 10px 0px 0px;  
-webkit-border-radius: 10px 10px 0px 0px;  
-o-border-radius: 10px 10px 0px 0px;  
border-radius: 10px 10px 0px 0px;  
border-width: 3px 3px 0px 3px;  
}
```

```
UL.ux-menu LI.ux-menu-item-main {margin: 0 0px !important;}  
UL.ux-menu LI {padding: 0 !important;margin: 0 !important;}  
UL.ux-menu LI:before {display: none !important;}  
#{ $id } LI.ux-menu-item-level-0  
{  
width: 225px;  
}  
#{ $id } LI.ux-menu-item-level-1  
{  
width: 225px;  
}
```

Thank you.

Re:round corner on vertical position

Posted by admin - 2014/08/20 06:05

Hello,

You can use "ux-menu-link" CSS class instead of "ux-menu-link-first" and "ux-menu-link-last" in CSS selectors.

Regards,
ARI Soft

Re:round corner on vertical position

Posted by demetan71 - 2015/11/25 14:55

:huh:

Is it possible to have round corner in horizontal main menu??

Can you give me the code please??

Here is my code:

```
#{ $id } LI.ux-menu-item-level-0  
{  
width: 100px;  
}
```

```
.ux-menu-vertical LI A.ux-menu-link-first,  
.ux-menu-sub LI A.ux-menu-link-first  
{  
-moz-border-radius: 10px 10px 0 0;  
-webkit-border-radius: 10px 10px 0 0;
```

```
-o-border-radius: 10px 10px 0 0;
border-radius: 10px 10px 0 0;
border-style: none !important;
}
```

```
.ux-menu-vertical LI A.ux-menu-link-last,
.ux-menu-sub LI A.ux-menu-link-last
{
-moz-border-radius: 0 0 10px 10px;
-webkit-border-radius: 0 0 10px 10px;
-o-border-radius: 0 0 10px 10px;
border-radius: 0 0 10px 10px;
border-style: none !important;
}
```

```
.ux-menu-vertical LI A.ux-menu-link-first.ux-menu-link-last,
.ux-menu-sub LI A.ux-menu-link-first.ux-menu-link-last
{
-moz-border-radius: 10px 10px 10px 10px;
-webkit-border-radius: 10px 10px 10px 10px;
-o-border-radius: 10px 10px 10px 10px;
border-radius: 10px 10px 10px 10px;
}
```

Everything is fine except I want Round corner in horizontal menu, and if it's possible only at left and right!!

Thank's! http://www.ari-soft.com/images/fbfiles/images/round_corner-dc364c4aa51d607c1a0d1c145d556e84.jpg

Re:round corner on vertical position

Posted by admin - 2015/11/25 20:46

Hello,

Add the following CSS rules:

```
LI.ux-menu-item-main>A.ux-menu-link-first
{
border-radius: 10px 0 0px 10px;
}
```

```
LI.ux-menu-item-main A.ux-menu-link-last
{
border-radius: 0 10px 10px 0;
}
```

Regards,
ARI Soft

Re:round corner on vertical position

Posted by demetan71 - 2015/11/26 00:20

:) It work's fine thank's a lot!!!

Re:round corner on vertical position

Posted by demetan71 - 2015/11/26 00:27

:dry: Another quick question!!!!

Is it possible to remove the ">" ???

Thank's

=====

Re:round corner on vertical position

Posted by admin - 2015/11/26 07:13

The extension doesn't add it. It seems ">" is added due to site template styles. Send a link to a page with the menu so we can investigate the problem in more details.

Regards,
ARI Sot

Re:round corner on vertical position

Posted by demetan71 - 2015/11/26 16:02

Thank's a lot!! I'm really surprised for the support!!!

It is almost correct. I repost my code, I try to correct some details.

You can look at the picture, you will see that the "portfolio" and "equipement" seem's lower.

I can live whit the ">" sign, but my main concern to publish my site is that I want the menu align to the right.

Like you said to me, it is maybe a template problem!!??

(sorry for my english I'm a french Canadian user)

<http://www.lefrogtograff.com>

Here is my code modified:

```
#{ $id } LI.ux-menu-item-level-0
{
width: 100px;
border-style: none !important;
}
```

LI.ux-menu-item-main A.ux-menu-link-first

```
{
border-radius: 5px 0 0 5px;
border-style: none !important;
}
```

LI.ux-menu-item-main A.ux-menu-link-last

```
{
border-radius: 0 5px 5px 0;
border-style: none !important;
}
```

.ux-menu-vertical LI A.ux-menu-link-first,

```
.ux-menu-sub LI A.ux-menu-link-first
```

```
{
-moz-border-radius: 5px 5px 0 0;
-webkit-border-radius: 5px 5px 0 0;
border-radius: 5px 5px 0 0;
border-radius: 5px 5px 0 0;
border-style: none !important;
}
```

```
.ux-menu-vertical LI A.ux-menu-link-last,
.ux-menu-sub LI A.ux-menu-link-last
```

```
{
-moz-border-radius: 0 0 5px 5px;
-webkit-border-radius: 0 0 5px 5px;
border-radius: 0 0 5px 5px;
border-radius: 0 0 5px 5px;
border-style: none !important;
}
```

```
.ux-menu-vertical LI A.ux-menu-link-first.ux-menu-link-last,
.ux-menu-sub LI A.ux-menu-link-first.ux-menu-link-last
```

```
{
-moz-border-radius: 5px 5px 5px 5px;
-webkit-border-radius: 5px 5px 5px 5px;
border-radius: 5px 5px 5px 5px;
border-radius: 5px 5px 5px 5px;
border-style: none !important;
} http://www.ari-soft.com/images/fbfiles/images/align.jpg
```

Re:round corner on vertical position

Posted by admin - 2015/11/27 12:03

Add the following CSS rule to remove ">" symbol:

```
.sp-module .ux-menu-container ul > li > a::before {content:""}
```

The following CSS rules move the menu to right side:

```
.ux-menu-container {text-align: right;}
.ux-menu {display:inline-block;}
```

Regards,
ARI Soft

=====

Re:round corner on vertical position

Posted by demetan71 - 2015/11/27 18:35

It's almost perfect.

But the ">" sign is remove, but there is space that it look not centered.

And on top the 2 menu in the center seem little more under. Et maybe some lines under it!!! http://www.ari-soft.com/images/fbfiles/images/space_gap.jpg

=====

Re:round corner on vertical position

Posted by Mazfer - 2015/11/28 05:39

Instead of doing this:

```
.sp-module .ux-menu-container ul > li > a::before {content:""}
```

Change it to this:

```
.sp-module .ux-menu-container ul > li > a::before {display: none;}
```

Adding "display: none;" will remove it from view.

Adding just "content: "";" will remove the content but its space will still be rendered.

To level the li-items there, remove the borders around the "Portfolio" and "Equipment" links by adding this:

```
UL#ariext161 LI A {background: #fff; border: 0 none !important;}
```
